

ALYA ALSIYABI

PROCESS ENGINEER · SYSTEM ANALYST · PROGRAMMER

Al-Seeb, Muscat, Oman | +968 9511 9284 | alya_alsiyabi93@outlook.com

SUMMARY

Process Engineer turned System Analyst & Programmer, bridging technical operations with end-to-end software development. Experienced in requirements gathering, system design, and full-stack coding across ASP.NET Core, Laravel, and modern JavaScript frameworks, having delivered systems for government, healthcare, and private-sector clients throughout Oman. Trilingual in Arabic, English, and German, with a growing focus on AI-driven tools and data visualization.

SKILLS

- **Programming Languages:** PHP, C#, JavaScript, HTML/CSS
- **Frameworks & Libraries:** ASP.NET Core MVC, Laravel, Next.js, Angular, React
- **Tools & Platforms:** Power BI, ChemCad, Figma, Canva, Photoshop, Microsoft Office
- **Core Strengths:** Requirements gathering & system design · Cross-functional collaboration · Detail-oriented multitasking · Independent & team-based work
- **Languages:** Arabic (Native), English (Fluent), German (Fluent)

PROFESSIONAL EXPERIENCE

System Analyst & Programmer

2021 – Present

AMAN Consultancy and Business Development — Muscat, Oman

- **Requirement Gathering:** Conduct interviews and meetings with stakeholders to gather and document system requirements; analyze existing systems and processes to identify areas for improvement.
- **System Design:** Develop system specifications from gathered requirements, build system flowcharts, diagrams, and data models, and collaborate with stakeholders to ensure designs meet their needs.
- **Client Proposals:** Write technical proposals for prospective clients.
- **Development:** Build frontend and backend features using ASP.NET Core MVC (clean architecture) and Laravel; developing skills in Next.js, Angular, and Power BI.
- **AI Integration:** Create and consume APIs, including AI APIs, to power smart, automated functionality.
- **Testing:** Test applications to ensure individual components function correctly.

Process Engineer Trainee

5-Month Traineeship

T-kavin Engineering Consultancy & Public Authority for Water — Muscat, Oman

T-kavin

- Assigned unique tags and labels to equipment to support easy reference and maintenance tracking.
- Created P&ID (Piping and Instrumentation Diagrams).
- Studied local and international standards (Shell, API, NORSOK) and their impact on P&ID development.

Public Authority for Water (PAW)

- Authorized water provisions for clients through comprehensive analysis and request management.
- Verified water meter precision and reliability using examination equipment.
- Monitored a water pump station via SCADA systems.

Digital Marketing

2016 – 2019

The World of Muscat Real Estate — Muscat, Oman

- Opened and managed social media accounts across multiple platforms.
- Designed marketing visuals and content for campaigns.

- Ran social media campaigns and opened new channels for client communication.

KEY PROJECTS
